

A TIME FOR CRANBERRIES

The preschool students at the **Putnam Family Resource Center** enjoyed the experience of taste testing some cranberries in different forms. They enjoyed cranberry juice and created their own snack of ladybugs on a log (craisins). Each child took home a special bag filled with cranberry bread, a book and coupons for fruit and vegetables. Each teacher shared *The Cranberry Story* with the class and the children learned where and how cranberries are grown and harvested. It was a great experience and the families loved their goody bags. The event was sponsored by **Interfaith Human Services of Putnam** as part of their nutrition education program, **Nourishing Neighbors**.
